

RIVA | RIVALE 56

Riva 56 Rivale with its elegant and sporty style given by its clean-cut lines and a state-of-the-art internal design, is the ideal yacht for those who want to live their experience at sea aboard the traditional Riva.

Born from the collaboration between Officina Italiana Design and Direzione Engineering Ferretti Group, Rivale is the synthesis of all the qualities that have made the Riva brand the undisputed excellence of nautical Italian art.

The Master Cabin occupies all the maximum beam of the boat. The large window located on the headboard of the bed gives a sense of depth and ample space.

Also the VIP Cabin located in the bow, boasts a large space with two side windows. Both cabins have a private bathroom.

The living room is a place of relaxation. The L-shaped sofa is located below a large window that gives great brightness to the environment and strategically positioned under a mirror that gives the sensation of a bigger saloon.

The kitchen is a true work of art, with refrigerator and compartment for drinks and glasses hidden behind the mirror of the living room.

On the left, accessible from the main deck, is the crew cabin equipped with a single bed, shower, toilet and sink.
