

**The VIVEUR 28** was developed to meet the needs of a highly demanding clientele.

The interior features an exceptionally spacious cabin with a headroom of approximately 2 meters, housing a private head equipped with a shower, electric toilet, and sink.

The cabin layout includes a comfortable double berth and a sofa bed, providing accommodations for three guests.

On deck, the bow offers a large sunbathing area and a sofa; the aft cockpit is designed for comfort and functionality, featuring a table, seating, and a helm station that conceals a built-in sink and drawer refrigerator.

Safety is paramount, even for long-distance cruising, thanks to the 350 hp LVM 6-cylinder engine and a solid, high-performance fiberglass planing hull. Reaching a top speed of 30 knots, the VIVEUR 28 blends modern lines with timeless elegance, finished with an expansive stainless steel swim platform.

### **Technical Specifications**

Shipyard: Tirrenia  
Year of Build: 2023  
Length Overall (LOA): 9.00 m  
Hull Length: 8.00 m  
Beam (Width): 3.10 m
