

XL MARINE 51 represents the vision of a new generation of premium open motor yachts, redefining standards within today's boating world. Its silhouette is clean and contemporary, combining elegance with performance-driven engineering.

The deep V hull (23° at the stern) ensures remarkable stability and smooth navigation, while the distinctive concave diamond-shaped bow delivers outstanding seaworthiness, maintaining comfort and safety even in challenging sea conditions.

Entirely conceived and crafted in Italy, every detail reflects a commitment to refined design and understated luxury.

The interiors are thoughtfully arranged to maximize space and comfort, offering generous areas tailored around the human experience. Each XL Marine yacht is designed with its owner at the center, blending functionality with sophisticated aesthetics.

XL MARINE 51 is created for true sea lovers — by those who understand and embrace the sea with the same passion and expertise.
